

## How to Create a New TUSC Account

**NOTE:** The TUSC registration webpage is protected by a CAPTCHA which runs in the background. Because of this, if you spend too long on the account registration page you can get a CAPTCHA error when you submit the form. If this happens, reload the page and start again, remembering to copy the new keys which appear!

You will need to keep your account name, keys and pass phrase in a safe place (not in the cloud). If you lose your keys, you will lose access to your account permanently. We **STRONGLY** recommend printing a copy of your keys, as well as saving a digital copy on a USB drive.

1. To get started, make sure you have Word or notepad open to save your keys.
2. Open the Chrome browser and visit the following registration link (this is a referral link which earns the TUSC Marketing Partner referral fees): <https://tusc.network/wallet/create-account/password/?r=tuscmpone>

The screenshot shows the 'Create Account' page for TUSC. At the top, it says 'Welcome to TUSC The Universal Settlement Coin'. Below that, it prompts the user to optionally restore an account or create a new one. The page displays three generated keys, each with a copy icon:
